

## **Route 5 Widening Project Sunrise Beach, Mo. Community Briefing March 6, 2013**

# **Frequently Asked Questions**

### **What is the purpose of tonight's briefing?**

The purpose of tonight's briefing is to gather public input about plans to widen Route 5 through Sunrise Beach. The project would extend from Singing Oaks Drive to Jet Ski Drive. The proposed work will provide a new, two-way, left-turn center lane to improve the safety of traffic turning left along this stretch of Route 5, which has a high number of entrances and side roads.

### **How will traffic be affected?**

The Missouri Department of Transportation proposes to construct the project while maintaining existing traffic flow. This will primarily be accomplished through lane closures when needed.

### **When will work take place?**

The project will be awarded in December of 2013 and the notice to proceed on construction will be given in January of 2014. Construction is tentatively scheduled to take place during the spring and summer of 2014.

### **Will additional right of way be needed to construct this project?**

We will not need to acquire permanent right of way for construction. Temporary easements are required for construction at some locations where proposed entrance work ties into existing driveways. For those property owners affected, we encourage you to reference a MoDOT brochure titled "Pathways for Progress." This brochure outlines the process and should answer many of your questions. You can find it online at [http://www.modot.org/central/documents/PathwaysforProgress\\_Final.pdf](http://www.modot.org/central/documents/PathwaysforProgress_Final.pdf). If you still have questions, our Right of Way staff will be happy to help you. They can be reached by calling toll-free 1-888-ASK-MoDOT (273-6636).

### **How is this project funded?**

This project is funded through a cost-share agreement between MoDOT and the Village of Sunrise Beach. Sunrise Beach and MoDOT are each funding approximately 50 percent of the project cost. The total project cost is approximately \$1.3 million.

### **How can I learn more?**

You may learn more by contacting us toll-free at 1-888-ASK-MoDOT (275-6636) or by visiting us on the Web at [www.modot.org/central](http://www.modot.org/central).
